

we can help with

INSTRUMENT REPAIR

Is your instrument broken or has it suddenly stopped working? No problem!
Our in-house Repairs department has the parts in stock to repair your units now.

MSA
Altair 4X

Surpassing the standards with this extremely tough Multigas Detector that simultaneously measures up to four gases from a wide range of XCell(R) sensor options.

MSA
Altair 5X

Driven by advanced technology, experience measuring six gases at once along with faster response time, better accuracy, longer service life, and cost savings.

MSA
Altair
Single Gas
Detector

Long life (2 yrs), cost-effective single-gas CO detectors offer outstanding dust and water protection. Features a distinctive triple alarm system.

Convenient Same Day Repairs

We are proud to be part of Mine Safety Appliances' (MSA) Certified Repair Center program since 2016. Our teams are fully trained and certified to repair your instruments, from calibration, to sensor replacement and additional troubleshooting. By investing in our in-house Repairs department, we can offer same day repairs for most trouble tickets so you never miss a beat.
